**Class communication:** The best way to contact me is through email. All course materials will be posted on canvas.

**Course Objectives:** Rigorous discussion of the topics introduced in calculus. Sequences, series, limits, continuity, differentiation.

**Course Evaluation:** Homework will count for 50% of the class grade, the midterm test will count for 20% and the final exam will count for 30%. Homework will be assigned weekly, and you are encouraged to work on them in groups, but you must turn in your own solutions.

**Midterm Exam:** October 16 in class.

**Final Exam:** A comprehensive final exam will be held on Monday December 7, 8:00am–10:00am.

Note: Students who enroll in Math 527 will have greater assignments and higher expectations and grading standards.

**Grades:** Grades will be assigned as follows:

A [90%,100%], B [80%,90%), C [70%,80%), D [60%,70%), F [0,60%)

**Make-up Exams:** Make-up exams will be provided only in the case of a documented legit excuse, at the discretion of the instructor. Excused absences include absences due to illness and travel on university or career-related business. Unless it is an unforeseen circumstance, arrangements must be made prior to the date of the exam.

**Withdrawals and Incompletes:** You have the primary responsibility for withdrawing from the course. **The last day to drop with a “W” is Monday, October 19.** Under university policy, the grade of **I** (incomplete) is given for passable work that could not be completed due to circumstances beyond the student’s control. The I grade should not be used to avoid a student receiving a D or F grade.

### Important Notes:

- You are expected to attend every class and show up on time.
- Announcements and grading will be communicated to you through Canvas. Access your Canvas account regularly.
- At the end of the final examination, the course is over, and there are no more opportunities to submit additional work.
- I will not compose extra credit assignments for students who want to try to compensate for poor

results in another component of the course.
